EDES | eSar Dynamic Examination System

EDES is Dynamic & intelligent Examination system that cover the Examination system Fields, Building Exams, Managing resources & data , Online Registration , control Management System and Fully Dynamic Reporting with Charting system. EDES is Collection of 3 Modules contains more than 78 Functions. EDES is the first Examination system worldwide gives the ability to Users to control in all features and functions in Examination System. EDES is Fully Secured in all Business layers, Database Storage and all data transaction.

How It Works?

EDES™ System is a robust, dynamic testing platform for administering, scoring and reporting tests
1. The examiner enters the subjects and the questions (single question at a time or import the whole questions).
2. The examiner authorizes students to take the exam.
3. The student login to answer the questions and submits the answers
4. EDES™ evaluates and marks the answers and stores it in the database.
5. The examiner can get the results immediately in various formats.

Benefits: from Paper-based to Computer-based

EDES Platform

eSar information Systems provides a turnkey solution for secure exam administration. Our system is based on a modular approach, designed to suit a wide range of user preferences.

Our mission is to meet real-world needs of administrators and exam takers, alike. We strive to continually create customizable and robust software that offers Dynamic, Intelligent, secure, and reliable way to administer important exams.

Build Exams	Delivery Channel	Exams Analysis	Administration	Reporting	Charting
Monitoring	Portal Design	Security	Alarming	Scheduling	Online web
SMS Gateway	Multimedia	Multi Lingual	Support	Import & Export	CMS

EDES Your Secure Solution

At every step of the testing process, EDES works to maintain security and data integrity. EDES has been a leader in security for many years because it has a unique process and it continually tracks and evaluates emerging security challenges. Moreover, EDES offers a distinct advantage because it takes very extensive steps to track, store and backup exam-taker answer activity, to provide an extra level of insurance for all key stakeholders.
